BRIEF ABSTRACT OF LETTER.

NOTES AND ORDERS.

Copy of letter No.Per.79/25 dated 9/10-12-1925 from the Inspector General of Police to the Chief Secretary to Govt.

With reference to your letter No.G.3527/Mily. 242-24-22 dated 16th Ultimo, stating that snider ball cartridges have been deleted from the indent as this class of ammunition is obsolete, I have the honor to state that 74 snider breech loaders converted into smooth bore were specially supplied from the Madras Arsenal on payment for the use of the Kolar Gold Fields (Vide Government of India, Foreign Department letter No.5145-1 A dated 7-12-1900 and Government of India, Foreign and Political Department letter No.426 I.A. dated 23-³~~2~~-1924). If the necessary ammunition has become obsolete and is not available, these carbines become useless and will have to be returned to the Madras Arsenal and some other up-to-date weapon for which ammunition is available has to be obtained and supplied, preferably Martini Henry Rifles as supplied to the Police in British India, if another supply of 303 Lee Enfield Rifles is not indented for which would be better and more convenient than Martini Henry's.

I request that the Hon'ble the British Resident in Mysore may be addressed in the matter and necessary sanction obtained therefor.

Copy of letter No.G.4753/Mily.242-24-29 dated 24-12-1925
Chief
from the Secretary to Government, to the Inspector General
of Police.

With reference to your letter No.Per. 79/25 dated
9/10-12-1925 regarding the supply of 303 Lee Enfield Rifles in
place of 74 Snider Breach Loaders, which have become ~~obsolete~~
I am directed to request you to furnish information on the
following points:-

(1) whether the nomenclature of the 200 single loading
.303 Rifles recently supplied to you is the same as 303 Lee
Enfield Rifles referred to in your letter.

(2) What the number of this class of arms is required

(3) What would be the probable cost of the rifles as well
as the ammunition required for them.

(4) From what source the expenditure could be met.

(5) What would be the value of the amount that would be
refunded ^{if} 74 Snider breach loaders which are obsolete arms
are returned to the Madras Arsenal.

(6) What is the complement fixed in the Mysore Police
for which this class of arms is required.

The favour of an early reply is requested.

Per
Copy of letter No.79/25 dated 15th January 1926 from the
Inspector General of Police, to the Chief Secretary to Govt.

With reference to your letter No.G. 4753/Mily. 242-24-29 dated 24th Ultimo calling for further particulars regarding the supply of 303 Lee Enfield Rifles in place of 74 Snider Breech loaders, I have the honor to state as follows:-

1. The nomenclature of 200 single loading .303 Rifles recently supplied is the same as 303 Lee Enfield Rifles under reference.

2. 75 Rifles are required.

3. The cost of the rifles as well as the ammunition would be Rs.4,500/- approximately.

4. A special allotment may be provided in the ensuing Budget Estimates.

5. No value can be realized for obsolete arms if the 74 Snider Breech loaders are returned to the Madras Arsenal.

6. 75 rifles now applied for are for the use of the Kolar Gold Fields proper in addition to the 200 rifles already supplied for the use of the Special Reserve Police Force, Bangalore.

1) The Police Department requires a supply of 75 Rifles in place of 74 snapper breach loaders deleted from the annual indent as being obsolete arms.

Sanction for the supply of these Rifles has to be accorded in the police section and provision also should be made in the Police Budget estimates. Hence the letter may be transferred to the Police Section for taking further action. This file which relates to the annual indent may kindly be returned to that section after taking necessary extracts of the communications relating to the subject.

20.1.26 M.V.

2) Inad. No reference in this Indent has been received in the Branch till now. As budget time is approaching it is perhaps better to apprise the D.S. of the situation & ask him to submit necessary proposals in this matter.

Draft put up for approval this day

9/1/26 3) The supply of the 200 Rifles referred to in the foregoing pages has been sanctioned in the Branch and the connected file has been filed to the I Member, with the references from the Comptroller & the Dy. Secy regarding the debit of the cost of the rifles to the current year's budget, instead of to the last year as advised.

6) The proposal to buy 75 Lee Enfield Rifles may perhaps favourably considered & provision made therefor in the next budget. The existing Snider breach loaders are now without ammunition & the K.G. Police will be without arms. The Presidency may be addressed, if the proposal meets with approval.

Whether it is desirable or necessary to arm the Reserve Police with 303 rifles is a question that has to be carefully considered. I am not sure if it will not be quite sufficient for Reserve Police to have only the carbines, as before, that would carbines can be used also.

in the manner in Allahabad and Arsenals,
which could be supplied to the H. & P. Police
and to which buckshot cartridges can be
used & cartridges for absolute cartridges cannot
be prepared in Mysore.

85) Rules for personal weapons. Govt. of India
have permitted the use of 303 rifles to
our H. & P. Police. Henry Rifles have
to be supplied, fresh sanction of the
Govt. of India seems to be necessary
to ammunition for absolute cartridges
cannot be prepared here, that question
has perhaps to be put up. A reply to
the Secretary (H. & P. Police) for incidents -
to the supply of 303 rifles from the Allahabad
Arsenal which have been sanctioned by the
Govt. of India) is due.

Recd
20/11/26 86) Submitted in the
reference to para 82:

87) It is seen from the
letter of the Dy. of Police that 303 rifles
are supplied to the Police in towns where
trouble is anticipated & in other places
the Reserve Police are armed with Henry
Martini Rifles which can take buckshot
also.

88) In modification of his original
proposal, the Dy. of Police now proposes
Henry Martini Rifles for the H. & P. Police

Serial
No.

Sanction has already been obtained from the Govt of India to arm the KGF Police with '303 rifles. The Residency may have to be addressed again to obtain permission for Heavy Martini Rifles, instead of '303 rifles.

89) As pointed out by the Dy. of Police in his unofficial note (para 80), '303 is more effective & perhaps less dangerous than a rifle which can take buck-shot, which spreads & injures a number of persons & at close quarters may kill them also. With a '303 there is not this danger of inflicting injury on several persons, when less severe means answer the purpose. It is for consideration whether, after all, '303 rifles may not be retained & the existing rule relating to buck-shot changed.

90) It is perhaps quite enough, if we order for 75 Heavy Martini Rifles instead '303 rifles, so far as this file is concerned & distribute these between the Special Reserve & the KGF Police, to some of whom '303 rifles may be loaned from the Special Reserve. The 75 men of the KGF. may be armed as follows:-

25 with '303 rifles
+ 50 with Heavy Martinis

The Special Reserve may have 25 Heavy Martinis

Sir,

I am directed to invite reference to your Memo No. 8654/298-1917 dated the 26-10-1925 forwarding a copy of Memo No. 3146-I.B, dated 14-10-1925 from the Chief Ordnance Officer, Madras Arsenal, Madras, deleting from the annual indent for 1925-26, Snider ball cartridges, as this class of ammunition was obsolete as per India List of changes 12592, and to state that 74 Snider breech-loaders converted into smooth bore were specially supplied from the Madras Arsenal on payment for the use of the K.G.F. (Vide Govt. of India Foreign Dept letter No. 5145-1A dated 7-12-1900 and No. Fr. & Pol. letter No. 426-1A dated 23-3-1914).

2. Now that the Snider ball cartridges have become obsolete and are not available, a necessity has arisen to return them to the Madras Arsenal and to obtain ^{instead the supply} ~~an indent~~ of an up-to-date weapon.

In this connection, I am to invite kind reference to your letter No. 4194/24-1890 dated ~~Bangalore~~ 19-5-1925) raised ~~the~~ the maximum limit of the supply of .303 single loading rifles to the Police of any of the larger States from 200 to 400.

So far, only 200 rifles have been supplied for the use of the Mysore Special Reserve Police, and I am to request you to be so good as to arrange for the supply of 75 ~~men~~ more Lee Enfield Rifles of .303 bore for the use of the Mysore Special Reserve Police.

Sir,

With reference to your letter No.P.1114/Police dated the 27th Ultimo, I have the honor to observe as follows:-

The Reserve Police were rearmed with .303 rifles last year at a cost of Rs. 10,000/- and odd. Up till then the rifle in use was an old type of muzzle loading .577 Cavalry Carbine. These rifles are very old and many of them un-serviceable and it was considered advisable to accept the offer of the Government of India to rearm our Police with up-to-date .303 rifles.

These latter rifles are I may say not brand new ones having been in use for some time in the British army and slightly worn, but not much, as I have tried them on the Hebbur Ranges and find that they shoot accurately.

The only thing that has been done to them by the Military authorities before handing them over is to remove the Magazine - that is to say the rifle is now a single loader and cannot be used for magazine and rapid fire, each cartridge having to be inserted into the barrel by hand. Except for this it is the same as the Military rifle.

It is conceivable that in these modern days it might be necessary on some occasion to have to use powerful and accurate weapons against a really determined mob that meant great mischief.

To be armed with this weapon is a great asset, in my opinion, to the Mysore Police Force, and as the Police of other Indian States can now be armed with this weapon too I can see no real reason why we should lag behind in this matter and remain out of date.

We still have our antiquated musket from which buck shot can be fired and these may be kept in readiness for any small out-breaks when it is not expected that any very great force will be required to overawe the mob.

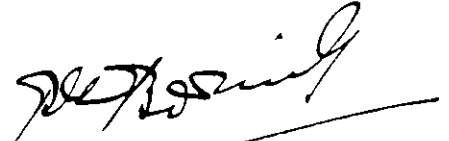

Now that we have the .303 as well it would seem to me to be unwise to scrap them and I think they should be kept in readiness for any extraordinary event that might possibly arise.

All the Reserve men many of whom are old sepoys have been trained in the use of the weapon and know how to handle it properly.

My considered opinion is that now that we have the .303 - we should keep both it, and the old - 577 carbine on hand and use whichever is considered desirable in an emergency.

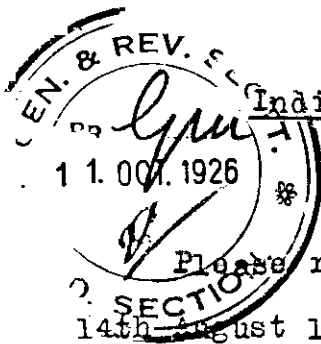

In fact rear ranks might be armed with the .303 for use, if the front rank fail to achieve their object with the use of buck shot.

I have the honor to be,
Sir,
Your most obedient servant,

Inspector General of Police.
